Introduction

Welcome to **IELTS Listening — Volume 5**, a printable practice book of 10 complete Listening tests, compiled and prepared by Teacher Ibodullaev Bekhruz.

Every test follows the real exam format: four parts and 40 questions — form, note and table completion, multiple choice, map and plan labelling, matching and more. Answer circles and blank lines are left for you to write your answers while you listen, just like on test day.

Part One contains all 10 question papers. **Part Two** contains the complete Answer Key for each test; where an audioscript was available, each answer is shown together with the words from the recording that support it.

How to use this book:

- Play the audio recording for the test (shared on **@bekhruzposts**) and listen once only, as in the real exam.
- Read the questions for each part before it begins, and write your answers directly in the circles and blanks.
- Check your spelling carefully — misspelt answers are marked wrong in the exam.
- Check your answers in Part Two, then replay the sections where you made mistakes.

Good luck with your preparation, and follow **@bekhruzposts** for more free IELTS materials.
